Center for Community Health (CCH)

Collective Action making a Collective Impact (CACI)

Committee Notes

DATE: Friday, May 4, 2018

CCH Mission: To advance community health, well-being, and equity through collective understanding of needs and innovative approaches to foster community strengths

Website: mnmetroCCH.org | Member password: Public Health

MEETING TIME: 11:00am-12:30pm		
LOCATION:	MCHP - 2550 University Ave W, St Paul, MN 55114; 2nd floor small conference room	
CALL-IN:	1-866-613-5223 access code 1817471	
MEETING OBJECTIVE:		
CHAIR:	Pakou Xiong – absent Margaret Schuster	RECORDER: Melissa Martinez-Sones
ATTENDEES: *= CALLED IN	Annie Halland, Margaret Schuster, Bonnie Brueshoff, Tiffany Utke, Libby Lincoln, Susan Palchick*, Kari Umanzor, Melissa Martinez-Sones	
NEXT MEETING:	*Friday, June 8, 2018*	

AGENDA ITEM	NOTES	TASK/ASSIGNMENT
Welcome, quick updates and announcements (*All*)	Message from Anne Ellison: transitioning to new role, Director of Interfaith Community Health; and no longer directly connected to CCH and this committee Member meeting on June 7th; space at HP?; also MN Association of Counties (off of Pennsylvania) MN County Trust Insurance Building. Mental Health Mind Matters exhibit opened at Science Museum; Minnesota Public Radio and American Public Media launching mental health initiative; related to the Hilarious World of Depression podcast, ongoing	• MMS will check with Pakou about room availability at HP
MMHM – Communications (Melissa/Annie)	UCare –Ken Barlow, Twin Cities Meteorologist, to come speak; end the stigma bracelets; social media and promoting activities from CCH partners; Libby: Employee well-being program; MMHM, doing lunch and learn; tabling in the cafeteria (30 pledges signed just yesterday); posters to every dept., weekly mental health fact and action in weekly huddles; encouraging managers to provide space for self-renewal; yoga and meditation session; Be Well champions promoting Make It Okay;	• Dakota County will send info to MMS to share with CACI cmte

	Dakota County board proclamation; two suicide prevention activities; suicide prevention conference; mental health toolkit; resource tables in 3 county atriums; news and social media as well; will share with MMS to send out to the group Ramsey County: County Board meeting proclamation May 15th; ribbon wall within each building; Our Voices community presentation; Mental Health First Aid classes – 3 in May; All full (30 people max registration) Meeting yesterday with two AAC members yesterday who volunteered to help with evaluation pieces; will help to tighten up post-survey and clarify the inventory to make sure we get responses that will be useful for us; feedback on survey, but also raises larger question about what would be helpful to capture on projects that we're doing; that discussion can happen here around additional support we want – walk through some of that in June and think about what evaluation data we're looking for Maybe for a future meeting, we look at MHFA post-survey and discuss.	• Discussion next month at CACI on what evaluation support would be helpful from AAC • For future meeting: discussion on Tiffany's pre and post surveys
Update on Stratis Grant	Joan, Roger, and Pakou met and mapped out a plan for the Stratis grant report and remaining funds. Lowell Johnson will use Carrie's draft report language and determine how to best package up all the work to share back with Stratis; this will determine next steps for the remaining funds.	
ZMHS – plans for June meeting *(Margaret & Gretchen)*	Margaret shared the simplified ZMHS and the Allina example as part of a PowerPoint for the next All Member meeting. (Allina used this to plot out their continuum of care and then how their programs fit within the Zone); this is what CCH members could be charged with doing to see what "aha" experiences they have – what would this look like in your own organizations and as a tool to talk about your own programs. Discussion about the all-member meeting agenda being set with plans for Jan Malcolm, Commissioner of Minnesota Department of Health, to present/discuss the statewide health assessment. What opportunities does that leave for CACI to present the simplified ZMHS? Intent was for our committee to present the Zone, to show how Allina used as an example to discuss and place their programs within the Zone, and then to charge CCH members to do the same activity within their own organizations (as appropriate). MMS clarified that the intent of the June meeting is to be very high level. Might be overly ambitious to present details of the Zone at this meeting.	• Send Allina example out with CACI notes

	Margaret reiterated that getting CACI's work in front of all members has been a challenge for the committee; keeping things always high level means no collective action and no collective impact from the whole membership. CACI asked for a commitment to do this in the fall and requested that the Steering Committee choose a fall date and to put this on the agenda. Bonnie - A step in the interim: may be more practical for CACI to do this activity first, and then ask everyone in the fall. Ask: what would this ZMHS look like in our own organizations? What programs/services fit within the Zone? Do we have a continuum of care, where are the gaps, and does support for CCH's activities fall into your continuum? Committee recommendations to Steering Committee: • CCH has had so much turnover – some sort of orientation or gathering before the all member meeting for networking. • try to schedule out the all-member meetings further in advance; • General clarification around membership, how does one become a member, can we use member materials, build in time for information sharing at all member meetings • Survey membership after fall meeting asking about ROI for agency? Do you know ABC has happened and has that been beneficial for your organization? • How does CCH measure success in terms of outreach, product, and how effective has that been?	• Bonnie charged CCH-CACI members to do this activity (as Allina did) within our own organizations, to see what "aha" experiences we have so that in the fall, CACI members could share examples and insights at the All Member meeting. Use the Zone as a tool to talk about your own programs.
Revisit CACI work plan & identify a co-chair	Table work plan for June meeting Margaret Schuster will serve as CACI co-chair with Pakou - HOORAY!	
Other subcommittee updates *(MHFA)*	Community Advisory conversation from joint meeting came up at Steering Committee – two committees charged with getting more meat on that; Idea came from CACI during collaborative meeting? There was general confusion from CACI members that this was an idea that was presented or a principle of engagement that was discussed. Important to include on next joint agenda meeting with AAC.	• Clarification about this comment needs to be discussed at next CACI meeting – was comment meant as advice for engagement or something more tangible?
Adjourn
